- HTML
- CSS
- Bootstrap
- Node.js
- React.js
- Reactstrap
- MongoDB
- MySQL
- Express
- GIT
- GitHub
- JSON
- AJAX
- APIs
- Media Queries
- command line

ABOUT

I'm a full stack developer interested in expanding my career in software development. After spending 10 years as an environmental professional, I am ready to use my love for problem solving and research along with my web development skills to make a positive impact on the web development community.

PROJECTS

HAPPY HOUR PAL
FULL STACK DEVELOPER

- A mobile web app that helps users find great happy hour deals nearby or in a specific area. Users can see existing deals or add new deals to the database.
- I worked on a team and I was responsible for creating React components and pages and achieving functionality with user authentication.
- https://github.com/DoctorSlow/happy-hour-pal
- heroku link here

REACT MEMORY GAME
FULL STACK DEVELOPER

- A space-cat themed memory game created with React.
- https://github.com/NaeSlayer/react-clickGame
- https://naeslayer-clicky-game.herokuapp.com/

DOKO
FRONT END DEVELOPER

- A relocation web app designed to be a one-stop-shop to help the user find a new place to live. The user can search for jobs by title or location and then see information and events for the city n which the job was located.
- I worked on a team and was responsible for incorporating the Jooble API, as well as writing the Javascript to display the job listings, events, and city stats. Also combined Javascript files to reduce redundant code.
- https://github.com/fibonaccicoder/doko
- https://fibonaccicoder.github.io/doko/

GIPHY API
FRONT END DEVELOPER

- A web app that incorporates the Giphy API to search for gifs from the television show 'The Office'. The user can choose from existing characters or add a new character.
- https://github.com/NaeSlayer/giphyAPI
- https://naeslayer.github.io/giphyAPI/
